

Sept 28, 2019

Dear Steve and Linda,

I can't thank you enough for sharing one of your glorious Cava-Poo-Chon puppies with us! We have named our sweet puppy, Bear and he is our first dog as a family.

My son is allergic to dogs and we never thought dog ownership would be possible for us. After reading about this breed and meeting him in person, we couldn't come home without him. My son's allergies have been well managed and both my kids love on him endlessly.

Bear has been the absolute best thing to happen to our family. He is so loving and so much fun! Bear is very smart and has been easy to train. He loves meeting new people and we love to take him out on adventures around town. We get compliments about him frequently when we are out and his fur feels softer than any other dog. He is so fluffy and truly feels like a teddy bear.

Words can truly not express how deeply in love we all are with Bear. We didn't know dogs could be this awesome. He is a little over 7 months and is about 17 pounds now. We love brushing him daily and his adult coat seems to be coming in, so we might have our first haircut soon.

Thank you for trusting us with him. We spoil him at every possible opportunity and our lives would not be the same without him!

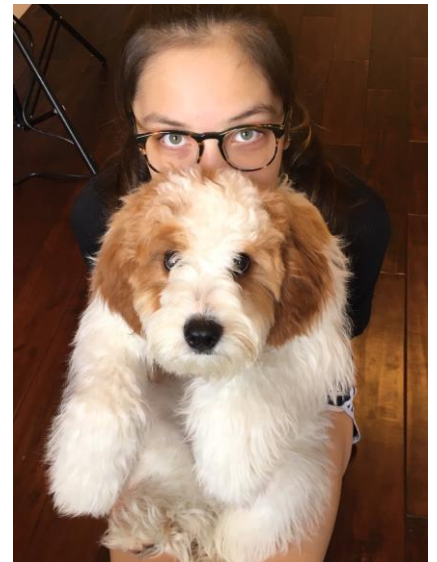

Family Photo Time with Bear!

We met at JDRF One Party

Bear Today

Love, Stoner Family
